

PROCUREMENT SPECIALIST – HUAWEI

Location: Milan, Italy

Type of Contract: Full time, powered by Huawei Outsourcing Partner

We are looking for a talented team member to join Huawei Italy Consumer Business Group Procurement department and take ownership of the end-to-end procurement process for the Marketing category of products and services. If all this sounds good to you, this could be the right opportunity for your next challenge!

About Huawei: Our motto is "make it possible", we use our customer-centric obsession, our perseverance, our dedication and a continuous self-challenge to accomplish the most challenging goals and always raise the bar! We think and execute very fast, but we are never superficial and always guarantee the highest standards. We are obsessed about continuous improvement and about creating value for the company, for the employees and for society. We are like a big multicultural family where relationships are informal and direct and where cooperation and support are our daily keywords.

We are a place where "results talk and ideas walk", good ideas are always welcome, but you have to take ownership and make them happen too. Openness and flexibility are our mantra.

Responsibilities:

1. Support the purchasing of products and services of Marketing categories for Huawei Italy CBG;
2. Support E2E procurement process, including but not limited to: supplier scouting; new supplier qualification; supplier negotiation, for simple purchases; bidding management; purchase order issuing;
3. Report final negotiation results to local management;
4. Coordinate Procurement Contracts finalization with business and legal support;
5. Strengthen Supplier Relations through periodic performance review;
6. Support the definition of a Supplier Portfolio strategy by category;
7. Carry out Spending Data Analysis and Market deep diving, to look for best practices and efficiencies.

Requirements:

1. At least 1-year working experience, basic knowledge of procurement process is preferred;
2. Project management skills and result oriented mindset;
3. Very good communication skills both with external partners and internal stakeholders;
4. Advanced knowledge of Excel and PowerPoint;
5. Capability to build up different economic "business scenarios", to support decision making;
6. Very good time management, proactivity, teamwork;
7. Fluent in Italian and English, intermediate level in Chinese.
